Carolina Villagra-Roth:
Picture "On the horizon III" (2015)

€3,700.00

Hamburg is a source of inspiration for me. I often take walks along the banks of the Elbe and discover the harbor with always new scenery. It is its rainy days, filled with wetness and haze, which suddenly give rise to atmospheric changes. They result in a sum of colors that I process in my paintings. When the fog comes and covers everything with its cloak of tulle, making even the big containers and cranes disappear, it's a motif I can draw from. It is my Hamburg in gray. The side edges of the picture are also painted.
