"Rare bird III - Expressive abstraction in motion" This original painting in acrylic on canvas (40x30 cm, 2024) captures the fleeting elegance of a bird with dynamic brushstrokes and a harmonious color palette. Earthy brown tones, deep blue and bright yellow merge into a composition that oscillates between figuration and abstraction. The visible artist's palette at the bottom of the picture lends the work a special authenticity and makes the creative process tangible. A powerful unique piece that enriches modern spaces with expression and movement.
