Astrid Stoeppel: Picture "Poured flower!" (2019)

€1,200.00

In my artwork, I combine bright acrylic colors with the energy and immediacy of abstract art. The composition of geometric and minimalist elements reflects modern simplicity, while the pop-like color accents breathe a cheerful vibrancy. The abstract blossom radiates an optimistic mood and will bring a fresh dynamic to any room. It is a tribute to the joy and play of shape and color. The painting is signed on the front and dated on the back. A fixative additionally protects the work from dust and UV rays, it is sent ready mounted.
