

Ulla Kutter: Picture "Fun Fair" (2022)

€4,000.00

Two young women are seen at the beginning of an evening at a fair. The young women represent unbridled joie de vivre. The lights of the rides and the asphalt with its different shades provide the background. The painter examines this color world of the fair and contrasts the bright colors of the rides with the dark colors of the asphalt floor. The ground has a different color in every single place. All the reflections of the surroundings can be found there. Ulla Kutter painted the first draft of the painting in 2017, then changed it again in 2022 to finish it. It is a picture full of optimism and joyful expectation. The painter depicted all the lights and neon signs in a two-dimensional, color-coordinated manner.
