

Mila Weis: Picture "Light Experience No. 7 / 2 Panels" (2022)

€3,500.00

This painting celebrates the fascinating world of light as both a phenomenon and an energy of life. The dynamics of the light reflections of the sea and its overwhelming colorfulfulness serve as a starting point for her reinterpretation. In this project, I used abstraction as a means of unconscious visual perception of the works. The compositions are characterized by three codes: the light, dynamic brush movements and striking colors to find energy and set their pace. In this work, I have captured vivid emotions through flowing acrylic stripes. Each stroke is an expression of movement and energy that together create a harmonious whole. By combining abstraction and impressionism, I wanted to explore dynamic contrasts and minimal nuances. This work "Light Experience No. 7" consists of 2 parts. Each canvas is 89 W x 116 H x 1.7 D cm, total dimensions of both works 178 W x 116 H x 1.7 D cm.
