

## Milena Radic: Picture "Quiet introspection" (2024)

€500.00

This artwork captures a moment of quiet self-reflection and shows a naked woman sitting sideways on a bed. One hand gently supports her body while the other rests quietly on her thigh. Her face remains hidden in the shadow of her flowing hair, while her lowered gaze creates an atmosphere of calm and solitude. The soft light plays around her natural contours, while gentle shadows bring depth and warmth to the composition. The simplicity of her pose, combined with the delicate play of light and dark, invites the viewer to capture the intimate and contemplative mood of this moment and appreciate the subtle beauty of the female form.
