

Ilona Schmidt: Picture "There is an overgrown garden in my head" (2020)

€1,490.00

In this work, acrylic and oil pastel merge into an expressive, partly abstract experience. The vibrant colors and shapes are an expression of the innermost, a garden overgrown with feelings. It is a passionate journey through the complexity of emotions that I explore through colors and textures. This painting enlivens any room with its energy and depth, inviting reflection and dreaming. Picture signed and dated
