

Marit Symalla: Picture "Focus" (2023)

€580.00

The modern wildlife portrait is 70 cm x 50 cm. It is painted on the sides, finished with a varnish and signed by hand. The acrylic painting shows a proud eagle. The red signal color is drawn with a large brush in a stroke over the painting. My intention: Animals live in the moment. This is exactly what fascinates me, because nowadays everything is very fast-moving. Most of the time you're already thinking about something new while you're still doing something else. I am a lot with my dogs in nature and enjoy it just a moment to pause and switch off from everyday life. Just to be in the here and now.
