

Uli Fischer Art: Picture "LAETUS VARIETATE" (2023)

A typical colorful variation of many modern cubic faces in the style of Uli Fischer. Just now is to be seen here in my home much colorful, it is the carnival season / carnival and therefore it has inspired me very much to paint this picture. Our everyday life is sometimes very gray, the nicer it is to see some color. I hope you enjoy looking at it. Your Uli
