

KNÖ-REI: Picture "665-GK" (2025)

€1,600.00

12 black pigments combine to create a fascinating ensemble of mystical elegance. Not all black is the same: the pigment palette achieves up to 99 percent absorption. This very special black always remains deep dark and exciting in the work, without any reflections. Otherwise, the actually monochrome work shimmers and shimmers in many facets and always differently. Sometimes it is deeply dark, sometimes it glows blue and brown. The spatial effect of the triangles then intensifies into a . A solitary(?) golden triangle made of metal leaf breaks through the colorful minimalism in the infinitely colorful darkness and expands our sensory horizon. Painted on artist's canvas with high-quality acrylic paints. The painting has painted side edges and can be hung without a frame, but can also be fitted with a shadow gap frame. It is signed on the back.
