

Ella Joosten: Picture "Endless Three" (2024)

€2,140.00

In creating this mesmerizing acrylic piece, I intertwined expressionism with geometric and impressionistic strokes to evoke the perpetual dance of nature. The semi-abstract forms converge into a symphony of lines and colors, reflecting life's complex harmony and resilience. This painting is a testament to the beautiful intricacies that surround us, inviting viewers to explore beyond the surface and feel the vibrant energy it exudes in any space it inhabits.
