

Ute Bivona: Picture "Murmuring summer" (2024)

€6,500.00

In my artwork, acrylic paints and graphite merge into an expressive dance of emotions. Abstract shapes and expressive strokes evoke the vibrant essence of summer while telling a story of growth and energy. The painting is meant to bring the warmth and murmur of the vibrant season into any room, inviting viewers to seek out lost memories and feelings in the depths of the strokes and colors.
