

Anne Samson: Picture "Flower meadow" (2022)

€1,290.00

Small flowers, green grasses, a meadow you see here in colors as they appear to you after a rain, when everything is beautifully intense and shiny. This detail is pretty. Small-scale, in impressionist style, was patiently dabbed and dashed here, worked over, next to and in each other and so slowly in thin layers the impression of a beautiful summer meadow. A quiet, but effective image.
