

Uli Fischer Art: Picture "GOLDEN INTERACTION" (2022)

GOLDEN INTERACTION A typical composition of modern and colorful figures on a noble background of gold leaf 24 carat. I was once interested in this type of representation and it has inspired me very much in the production of the work. I have the medium metal or gold very happy to work and find it also to my strong colors very harmoniously succeeded. The interaction of the figures to each other also speaks for itself. I painted the picture this time without musical support from my girlfriend ALEXA, but a good sip of Riesling so white wine was there :-). Have fun with it. Your Uli Fischer
