

Dorothe Willeke-Jungfermann: Picture "Golden" (2024)

€500.00

The light of the moon shimmers golden in the black night. Magical. This magic radiates from the small-format picture. Gold leaf metal lies, almost fleetingly, on the translucent black background of arcyl paint. The edges of the picture are also painted with black Arcyl paint. The simple white frame with a plexiglass pane protects the picture and creates space. The picture can be hung up or displayed.
