

Michael Rofka: Picture "Square" (2022)

€2,800.00

This is one of the series of "Squares" with their warm and a little mysterious atmosphere. The color field painting, for example, a Marc Rothko close artist has also applied here the paint in numerous glazing layers to achieve a vivid deep color. In this work, the background is rather ochre and bright. The square, whose edges run, is also here strong red. The painting creates a pleasant atmosphere in any room and offers the eyes an interesting surface, which you just want to reach into. The colors have been made from pigments by the artist himself.
