

Irina Laube: Picture "Autumn evening at the lake" (2021)

The suggestions and inspirations for my work I take from nature with its various facets. The process of image creation is based on intentional coincidence and exact further development. The focus of my work are the colors, structures and shapes that I want to implement with the different techniques in a certain harmony. Not to reveal too much, not to imitate, which also means not to dictate. A work with autumnal mood, gray, brown, pink and other colors from this palette. The sides of the picture are painted, finally the varnish with UV protection.
