

Bea Schubert: Picture "Kiss Of Life No.3" (2025)

€2,000.00

My painting, inspired by Sade's soulful song "Kiss of Life", captures the tender essence of love and connection. The focal point is the symbol of two kissing fish that come to life in warm, inviting colors. The kissing fish stand for harmony and the intimate dance of life. The palm tree symbolizes peace and fertility, but also the warmth and lightness of the south. Through this work I wish to evoke a sense of warmth, love and the magic of life's delicate interactions. The painting is painted on high-quality canvas and varnished to protect it from UV radiation. it can be hung immediately.
