

Anja Struck: Picture "flying object" (2016)

€2,900.00

The picture is square. It represents a bright abstract surface divided into rectangles. Shades of gray, light blue and pink enliven the surface. From a bird's-eye view, the viewer sees a person in the upper right corner throwing what appears to be a purple-purple paper airplane into the air. By blurring the figure, the viewer sees and feels the throwing motion. The otherwise abstract image is given a tension by this moving figure, which holds the viewer's attention and at the same time draws attention to the living surrounding space.
