

Ella Joosten: Picture "Forest Silhoutte Eight" (2024)

€1,850.00

In this piece, I delve into the chaotic and the calm, painting an abstract forest at sunset. The wild black branches dance against a backdrop of a soothing, yet vibrant horizon that transitions from warm golds to cool blues. This juxtaposition of energy amidst serenity invites viewers to find beauty in complexity and peace within turmoil. It's a reminder of nature's dualities and a reflection of human emotions, perfect for bringing a dynamic yet harmonious energy to any space.
