

Julia Pasinski: Picture "Flying high (seagulls)" (2020)

€1,600.00

Against a rich green background that conveys a fresh and lively atmosphere, seagulls hover partially at eye level with the viewer. The image captures a rare, almost intimate moment when the viewer can look directly into the eyes of these seabirds. The depictions of the gulls, from their outstretched wings to their focused gazes, convey a sense of freedom and independence. The green background provides an unexpected but intriguing contrast that highlights the white and gray tones of the gulls. The painting was done on canvas in oil. On the back it is signed and dated.
