

Anne Samson: Picture "Wonderful summer" (2023)

€1,290.00

The beautiful summer picture shows imposing flowers in red and pink and white. They are surrounded by stylized plant parts in shades of green and bright white. The painting has something Jugendstil-like, as the flowers and leaves are strongly ornamental. The color scheme is fantastic with the turquoise and delicate yellow and some black in the background. A very decorative work that shines. By the way, you can hang it horizontally or vertically, which is why the signature is on the back. Both versions are great. Decide for yourself.
