

Alina Kloka: Picture "Circles" (2023)

€1,000.00

In the work "Circles", Alina Kloka guides us through a journey of consciousness, with abstract circles in dark and light symbolizing the subconscious and emotions. Dark tones represent the deep potential of our inner self, while blue and yellow circles represent calmness, confidence, happiness and optimism. These elements, which seem to dance on the canvas, embody the dynamics of life. In the depths, behind these feelings, an eternal eye is depicted, a symbol of the inner creator and the soul that always protects us humans. The painting encourages us to cultivate positive feelings and appreciate the joys of existence. It reminds us how important it is to preserve the vitality of our emotions.
