

Zoyt: Sculpture "Small spiked hats" (2022)

€33,000.00

The spiked hat wearers are from a series of surrealist figures, mostly dressed in red and wearing a spiked hat, which on the one hand represents a longing antenna, as well as could be the spike of a being of reason. This small group is only about 160 cm high, in contrast to earlier ones, which were almost all about 240 cm tall. The sculptures are also available for purchase individually.
