

Stefanie von Quast: Sculpture "Biermadl (a bavarian girl)" (2021)

€1,200.00

Bavarian girl in dirndl enjoys her beer sitting on a beer keg. She could be drinking her Masskrug at the Oktoberfest in Munich. As far as possible, Stefanie von Quast creates her bronzes herself, the model, the mold making, the wax patterns, and after casting, the chasing and patinating. She leaves the bronze casting to an art foundry near Munich. Thus, she has the opportunity to change and improve something at every step of the process.
