

Nicole Leidenfrost: Picture "Boat trip" (2020)

€6,400.00

"Boat Trip" is an abstract depiction that unfolds in a palette of passionate reds. The canvas is a composition of fiery nuances that blend together to create a vibrant, almost pulsating atmosphere. In the midst of this vibrant symphony of color, a scene seems to awaken: A foreboding setting sun that bathes the sky in a passionate red. Perhaps you can make out the outline of a picturesque boat gently rocking on the waves in the interplay of abstract lines and colors. It is more of an assumption, a suggestion, than a clear image - a fleeting impression that leaves the viewer room for interpretation.
