

Sabrina Seck: Picture "BATMAN" (2024)

€4,100.00

In my work, I wanted to capture the strength, determination and dark aura of Batman, embedded in the living fire of a background that reflects the intensity of the comic book world. The clock of the same name is intended to complement the artwork. The use of acrylic allows for sharp contrasts and deep color saturation, perfectly showcasing the dramatic flair and pop-artistic verve. This painting will make a powerful statement in any room it hangs in, mesmerizing viewers with its energetic presence.
