

## Gary Westall: Picture "Albert Memorial London" (2017)

€550.00

I painted this picture as part of my plein air painting trip to London in 2017. Queen Victoria had this monument erected in memory of her beloved husband, Prince Albert, financed by donations from the British people. The statue depicted is "Europe" and is partly this imposing building. If you are in London, make sure you see it, it is beautiful. Oil on HDF - 24x 30 cm. Signed lower left.
