

Ella Joosten: Picture "Bloom Six" (2024)

€870.00

In this painting, I poured my emotions into each brushstroke, allowing the vibrant colors and bold textures of the acrylics to express the sheer beauty and vitality of nature. The interplay between expressionism, impressionism, and semi-abstraction invites the viewer to experience both the energy and tranquility of floral life. It's a celebration of nature's resilience and splendor, designed to invoke feelings of joy and peace in every home.
