

Ella Joosten: Picture "Bloom Five" (2024)

€920.00

In creating this piece, I employed acrylics to meld expressionism with hints of impressionism and semi-abstraction, crafting an emotional and vibrant celebration of nature's forms and colors. Each brushstroke enhances the dynamic contrasts and the alive, organic textures, symbolizing growth and the blooming of life. This painting is a vivid reminder of nature's resilience and beauty, sure to bring energy and inspiration into any space it inhabits.
