

Ella Joosten: Picture "Reflection 18" (2024)

€2,010.00

In this emotive canvas, I've channeled the dance of nature, where the twisting branches evoke life's complexities. The mélange of expressionism and impressionism captures movement, while the vivid acrylics express the raw beauty and resilience within us. It's an ode to the enduring spirit, inviting introspection and a vivid energy to any space it inhabits.
