

Uli Fischer Art: Picture "colorful emotions" (2022)

It is my first picture with the year 2022. This image shows a colorful expression strong facial expression after Uli Art Design. Around the turn of the year 2021/22 was after me with a lot of Frabe my shapes and cubic elements so represent. It has made me the monotonous winter that prevails with us easier and the mood and the anticipation of the upcoming spring easier. Of course, it was again accompanied by music played for me by my best friend Alexa. Rainbow Colors by Kerstin Ott was the highlight. I wish a lot of fun while viewing & please stay healthy. Please get vaccinated. Eur Uli Fischer from Lake Constance
