

Uli Fischer Art: Picture "WISHES 2024" (2024)

WISHES 2024 It is a painting from my "STREET ART" series. Due to the many elements and lettering as well as my own style it is something very special. With many letterings, e.g. FREEDOM; LOVE; AMORE; JOY; CORAGE; SMILE etc. I have tried to depict the most important wishes for the new year in a poppy way. Painting such pictures frees my thoughts and there are no limits to my creativity. It is simply fun. You always discover something new when you look at them. The background is made of gold leaf. Have fun looking at it and smiling. Your Uli Fischer
