

Susanne Meyer: Picture "young and wild" (2022)

Already the title "young and wild" - bold, full of vitality, brash and at the same time playful-light-footed, the new series of works by Susanne Meyer comes along. It is a single rebellion, a "painting against the tristesse" as the artist herself says. The works in acrylic with their bright colors, created during the Corona peak period in 2020 and 2021, indeed leave no one behind in their sadness.
