Michael Rofka:
Picture "Blue planet" (2019)

€2,000.00

This picture has a square format. Central is an intense painterly square ultramarine area floating against a rather dark diffuse background. The picturesque blue square has a deep intense color power. It is a magical focal point in a room and invites the eye to linger. The painting is part of a series of square paintings that the artist keeps expanding. The square is a symbol of the earth, which is brought to a versatile glow in the artist's painting.
