

Ulla Kutter: Picture "Fun Fair 2" (2024)

€3,500.00

Ulla Kutter has painted a scene at a fair in a spectacular perspective. An "octopus" float hovers above the viewer. Countless LEDs can be seen in many colors. The details of the decorations are quoted and are picture in picture in an underwater scene on the hull of the device. It almost makes you dizzy to look at it. In the middle of the picture, a couple is sitting in one of the cars and enjoying the wild ride. It is not yet dark, the sky is also moving wildly and a part of the city of Hamburg can be seen in the background: the television tower. The ground is damp and reflects everything. The mood of the painting is strongly sentimental and romantic.
