

Hasso Heybrock: Picture "Rømø 2023" (2023)

€1,550.00

The southern Danish island of Rømø borders with its wide sandy beaches on the open North Sea and invites with its wide landscape and the long dune strips especially in the summer months to vacation. The special light present over the island on clear summer days particularly emphasizes the play of colors between the blue sky and sea tones and the colors of the beach and dune landscape. In the vastness of this landscape, visitors lose themselves and one is free and alone with oneself and this magnificent scenery. Here is space and opportunity for inspiration.
