

Uli Fischer Art: Picture "JUNGLE" (2023)

A colorful animal design as it can be in a jungle. Many animals of different kinds look at a direct and I have tried to put these beautifully in scene. Of course, again many strong colors and shapes make the image on a size of 100x100 cm very exciting to look at. I think you can see here clearly my own personal style. Enjoy the moment and dive with me in the jungle. This is art from Lake Constance Love greetings Uli Fischer
