

## Heike Schumann: Picture "Relaxed attitude" (2020)

**€2,200.00**

The work "Entspannte Attitüde" was painted with high-quality acrylic paints and putty on a 4.5 cm deep canvas, dated and signed by the artist. This is an original work of art! Heike Schumann was inspired to create this work during a modeling session in her studio on the Baltic Sea. Due to the three-dimensionality of the model, the approach is experimental and dynamic, making the picture look very lively and abstract. At the same time, the pose of the model and the color scheme of the work convey a sense of calm and serenity.
