

Uwe Fehrmann: Picture "Stormbringer" (2023)

€2,850.00

The abstract painting "Stormbringer" measures 120 x 80 cm and stands out with its striking color palette. It is dominated by an interplay of blue, turquoise, black, red and orange. The work shows a lively dynamism and movement that immediately catches the eye. The viewer has the impression of whipped up waves. The background consists of different shades of blue that wind around the center of the picture in swirling patterns. These look like a rising, condensing movement and create a turbulent atmosphere. The brushstrokes and color gradients reinforce the feeling of movement. They are sweeping and irregular, giving the painting an improvised character.
