

Ute Meyer: Picture "Birka vird / Shetland" (2001)

€1,450.00

This picture was created in my studio after a trip to the Shetland Islands, inspired by photographic notes. I was particularly drawn to the peaceful, tranquil evening mood, which I captured with expressive brushstrokes. The rich texture of the grassland and the gentle reflections of the water take center stage, lending depth and harmony to the scene. The work is framed in gray glazed pine wood, which emphasizes the calm atmosphere of the picture. My signature can be found on both the front and the back.
