

Heike Schumann: Picture "Moin Hamburg" (2022)

€2,200.00

The work "Moin Hamburg" is an abstract-figurative representation that was created during a nude painting session in the studio on the Baltic Sea. The use of various materials such as paper, putty, sand and acrylic paint gives the work a certain depth and structure. The placement of the women suggests that they may be enjoying the view of the harbor environment or are in dialogue with it. The acrylic painting is a unique piece on canvas and belongs to the style of contemporary art. The original artwork is painted with high-quality acrylic paints and is dated and signed by the artist.
