

Marina Krasnitskaya: Picture "Energy" (2021)

€9,600.00

The work was done with the technique of multilayer oxidation of metals. Changing lighting in the room changes the image. The painting can be hung both horizontally and vertically. ...In various all-over structures, sometimes softly blurring and then again solidifying in a cubist-mineral way, the viewer's eye can wander undisturbed and freely over multicolored soothed surfaces, granting space to the viewer's subjective daydreams in all directions....
