

Toni Nohe: Picture "The echo" (2023)

€3,800.00

"THE PAINTING IS RESERVED FOR THE ARTMUC ART FAIR IN MUNICH UNTIL APRIL 15, 2024. NOT FOR SALE UNTIL THEN
In "The Echo", a convincing interplay of warm blue and light tones creates a vital structure. This dynamic lends the artwork vitality. It encourages us to think about the positive metaphor of an echo - giving, receiving, listening and attentiveness. Lines on the canvas form a communicative network, illustrating how positive actions return like an echo. As a viewer, you are invited to be inspired and send out positive energy. "The Echo" encourages you to experience the reflections of positive forces, a visual meditation on life's interactions and the power of positivity that resounds through all levels of our being."
