

Anja Struck: Picture "unbiased and lively" (2023)

€1,200.00

The human being is at the center of my work, so also in this work. It is a cheerful scene by the sea. The joy of life and the liveliness of the dancing couple is contagious. I myself spend a lot of time at the Baltic Sea or also at the North Sea and as soon as I am at the sea I feel free and happy. I often feel a great desire to dance exuberantly. The special mood in this picture I achieve through the technique of blurring. My signature is on the back.
