

su sea: Picture "Charles I" (2022)

€2,800.00

Karl Lagerfeld - fashion designer, designer, photographer and costume designer. Known all over the world - he could not miss as a colorful portrait! I have portrayed him in 2 ways in different colors and comparing the two works it becomes clear what a significant impact colors can have on the final expression of a portrait. Compare yourself..... In the two mixed media works "Karl I" and "Karl II", were used acrylic paints, graphite, tissue paper and plastic masses. Through the plastic masses and the tissue paper, the image has a structure.
