

Uli Fischer Art: Picture "PORSCHE 911," (2022)

PORSCHE 911, for me one of the most beautiful German cars ever made and of course inspiration enough to paint this. I think there are many fans who love this sporty and elegant car as much as I do :-). I have tried the painting again very pop in my style to highlight and represent. The combination with the German colors black red and yellow gold I like very much and should make the origin of the vehicle clear. Many greetings Uli Fischer
