

Kerstin Forster: Picture "Spring feelings (4)" (2021)

€670.00

In this expressive mixed media work on 300g watercolor board I have in a gestural style with acrylic, oil and charcoal and graphite depicted a spring landscape. Perhaps with remnants of snow in the foreground, relatively figurative, and an abstract background built up in many layers. Here the lower layers shine through brightly. Again, the picture in the picture motif.
