

Nicole Leidenfrost: Picture "Flowers - Quartet" (2020)

€14,000.00

This impressive work of art invites you to immerse yourself in the vibrant world of flowers. On an imposing size of 200 x 160 cm, an expressionist masterpiece unfolds, focusing on the beauty and vibrancy of a bouquet of flowers. The powerful brushstrokes bring the blossoms to life and lend the work a dynamic depth. The contrast between the vibrant colors of the flowers and the classic, deep black of the background inevitably draws the viewer in. This harmonious combination creates a fascinating aura that lends any room a subtle yet powerful elegance. "Flowers - Quartet" is made in four individual pieces (each 100 x 80 x 4 cm). We recommend a simple, black frame to present this work of art appropriately.
