

Anja Struck: Picture "happy on the road" (2022)

€2,300.00

They stroll together in the shallow water. Barefoot, jacket on - surely it's a somewhat windy day. A typical day at the North Sea? Three children who are together at the sea. A small community that enjoys togetherness, but also the environment, the sea, the beach, the joy of walking barefoot through the water. The colors of the picture are bright and friendly. The people are somewhat blurred, which reinforces the impression of wind. Does the picture remind you of your own childhood? Does it awaken longings to be there? Or does the viewer think of his own children, of his own vacations? The viewer is drawn into the picture and feels the sea, wind and sand under his own feet.
